

## PRODUCT INFORMATION

# iJect touch UP

## inJect the easy way...

iJect touch UP 150 with Options

iJect touch is a mobile PLC controlled RTM machine. Its easy user interface based on a Siemens control with 4" colour touch panel allows you to control the main functions of your machine. Basic functions like pressure, quantities, e.g. are always displayed. Injection data can be stored on a stick (optional). The 12" control is required for several options. The process control ensures repeatable processes and part quality. The automatic flushing system guarants an efficient and resource-saving cleaning.

Standard:		
4" colour touch panel	Siemens PLC	Recipe database for 20 moulds
Pressure control	Mould selection	High quality piston pumps
Automatic flushing system		
Options:		
3 Components	USB data recording *	Automatic injection valves
RFID or barcode scanner *	Remote access *	Press interface *
Solvent tank level sensor *	Automated dosing ratio adjustment	Coriolis flow meter *
* Siemens PLC with 12" display and extended functionality (required)		

## Technical Data

(Subject to technical modifications)

iJect touch UP	150/11
Power	Compressed Air
Power Supply	230 V
Max. Air Pressure	6 bar
Air Consumption	120 l/min
Capacity per Double Stroke	150 cc
Max. Output (dep. on viscosity)	~ 4.0 kg/min
Catalyst Dosing Ratio	0.8 – 3.0 %
